Custom
Shape Cookies

It started as a half-baked idea more than 20 years ago — a Smiley® Cookie as the vehicle to communicate the ethos of a restaurant — Eat'n Park, the Place for Smiles. Soon our cookie became not just the signifier of a delightful family dining experience, but a symbol of commitment to community and charitable giving, indeed, the mascot of the company.

Each year, we bake more than 11 million cookies — in many shapes and sizes. We bake our cookies in our state-of-the-art 50,000 square foot bakery and distribution center located in Pittsburgh, PA. Our cookies are nut-free, kosher certified, and trans-fat free. Each order of cookies is baked fresh and hand-iced.

But the one thing that that remains the same no matter how the cookie crumbles — our signature, friendly smile — the frosting on the cake (or cookie) so to speak.
